SUPPORT TO THE PROMOTION OF CIVIL SOCIETY REGIONAL ACTION IN THE WESTERN BALKANS

1. Background

The Western Balkans Region includes **Albania, Bosnia and Herzegovina, Kosovo ***, **Montenegro, North Macedonia and Serbia**, referred to collectively as **the Western Balkans or WB6 Region**. In this document the above geographical names are also used as abbreviations for the constitutional names of the Western Balkans Fund (WBF) Contracting Parties.

Promoting regional cooperation is a key component of the EU's policy towards the Western Balkans. The Western Balkans Fund, an international organisation, owned by the Ministries of Foreign Affairs of the region, shares the same goal and values. If you want to learn more about the Western Balkans Fund, please visit the official webpage, www.westernbalkansfund.org

A region with an active civil society is a critical component of democratic systems and an important player in reform processes taking place in the Western Balkan region. An empowered and active civil society is an essential component of any democracy. Civil society organisations (CSOs) can contribute to addressing many societal challenges, by engaging in the policy debates, putting forward innovative, sustainable and inclusive solutions and monitor the implementation of regional cooperation and reconciliation processes at beneficiary, regional and local level. CSOs in the Western Balkans need to engage in a range of challenges faced by their societies, including in fields such as regional cooperation, reconciliation, people to people links, good neighbourly relations, social cohesion and environmental protection.

A healthy regional cooperation supports and promotes dialogue and tolerance, furthermore, civil society has important roles to play in promoting confidence building and good neighbourly relations throughout the region, including normalisation of relations among different ethnicities in the WB region. In addition, CSOs have a key role in identifying and addressing various imbalances and gaps that push through reconciliation processes. WBF support to CSOs aims at building stronger democracies, improving capacities of grassroots organisations, accountability systems and ultimately achieving better, more inclusive, and sustainable regional cooperation and social cohesion. This Call for Proposals is launched in the framework of the EU/WBF Joint Action, these Guidelines for Applicants aim to inform the potential applicants on the rules of the grant scheme "Support to the promotion of civil society regional actions in the Western Balkans". In an overall vision of enhanced regional cooperation, good neighbourly relations and reconciliation, whereas under this Call for Proposals, a number of grants will be awarded to create and/or support joint regional projects of CSOs in a range of WBF's areas of intervention. The projects financed will help improve regional partnerships among CSOs and capacity building support of CSOs in a Regional Level. Financial support to third parties ("sub-granting") will enable WBF to expand the participation of grassroots organisations across the region within areas of intervention: a) cultural cooperation, b) education and scientific development and c) sustainable development.

The present Guidelines for Applicants are intended to inform the potential applicants on the general Rules of EU/WBF Grant Scheme. As such, they need to be carefully followed during all the preparatory work of the Project Proposals.

¹*This designation is without prejudice to position on status, and is in line with UNSCR 1244 and the ICJ Opinion on the Kosovo Declaration of Independence

Co-funded by the

EU/WBF contributions under this call for proposals take the following form(s):

- i. actual costs incurred by the lead applicant and partners;
- ii. one or more simplified cost options (see below).

Only 'eligible costs' can be covered by a grant. The categories of costs that are eligible and non-eligible are indicated below. The budget is both a cost estimate and an overall ceiling for 'eligible costs'. Simplified cost options (SCOs) may take the form of:

- € **unit costs:** covering all or certain specific categories of eligible costs which are clearly identified in advance by reference to an amount per unit.
- € **lump sums:** covering in global terms all or certain specific categories of eligible costs which are clearly identified in advance.

Costs options are divided in two categories:

1. **Unit Costs:** this category includes units identified by days, months, participants, contracts etc., multiplied with per unit cost. These costs help the applicant carefully plan and foresee anykind of unexpected event. Where possible and appropriate, unit costs shall be determined in such a way to allow their payment upon achievement of concrete outputs and/or results. This type of cost can be proposed by the beneficiary (no threshold is applicable) at application (in Annex B OGMS – Budget). In case the evaluation committee is not satisfied with the quality of the justification provided reimbursement on the basis of actually incurred costs is always possible.
2. **"Lump Costs":** This second category entails lump sum amounts for all of the works agreed upon before the works starts. Lump cost can be included by the applicant only during the application phase since it is expected to have decent information on the market prices.

The methods used to determine the amounts or rates of **unit costs** or **lump sums** costs must comply with the criteria set in WBF financial guidelines that the costs correspond fairly to the actual costs incurred by the lead applicant and partners are in line with their cost accounting practices, no profit is made and the costs are not already covered by other sources of funding from EU and/or WBF (no double funding).

WBF before awarding the grant checks preceding are integral part of the process before signing the grant contract. During this phase Contracting Authority in case of revealing any potential problem, double financing or discrepencies is entitled to impose potential modifications/changes to the submitted budget by the Lead Applicant. Changes may include but are not limited to: arithmetical errors, inaccuracies, unrealistic costs and ineligible costs.

- € It is not possible to increase the grant or the percentage of EU/WBF co-financing as a result of these corrections.
- € It is therefore in the applicants' interest to provide a realistic and cost-effective budget.

4.1 Eligible direct costs

This Call for Proposals foresees cost-sharing (also termed as co-financing) as a mandatory condition for receiving a grant. The EU/WBF grant covers up to 80% of total project eligible costs. The remaining 20%, or more, must be covered by own applicants funds (from the project lead and/or the project partners) and

¹³ In order to have a wider impact and higher sustainability of Joint Initiatives, WBF encourages diversity in Partnership and Project Ideas.

Co-funded by the

other donors' financial contributions.

A well-planned budget shall be simple and realistic. The budget should include approximations of the project's future expenditures in EUR (€) based on real costs in the market.

To be eligible under this call for proposals, costs must comply with the provisions of Section 4. of the Application Guidelines.
